**Oakland Public Library Presents E-Government Literacy at the Library**

**Oakland, CA** – The Oakland Public Library, at 125 14th Street, is launching an educational program to promote e-Government literacy to meet the needs of 21st century citizens. Most current government publications are available in electronic format and increasingly government agencies are requiring applications and forms to be submitted online. To make people aware of the many local community and e-government resources available to them and to help them access these resources, the Library is offering a series of programs and workshops, in partnership with local community organizations, on a nearly monthly basis from January to September. All classes will be held in the Main Library's Bradley Walters Community Room.
